**Killed by Poisons**

All scientists agree that poisonous products in the blood are eliminated by the kidneys and liver. The kidneys act as a kind of filter for these products. When the kidneys are changed or degenerated, by disease or old age, then these poisons are retained in the body. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y., says that you should drink plenty of water daily between meals to flush the kidneys. Then procure at your nearest drug store Anuric. This Anuric drives the uric acid out. Scientists have learned that in gout, acid rheumatism, poisonous uric acid crystals are deposited in or about the joints, in the muscles—where inflammation is set up.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. Anuric is many times more potent than lithia and dissolves uric acid as hot water does sugar.

Send 10 cents to Dr. Pierce, if you wish to obtain a trial package of Anuric.

CHATTANOOGA, TENN.—I wish to say that I suffered from backache and kidney trouble for some time. I could hardly do any kind of work. I heard of Dr. Pierce's Anuric Tablets so I tried them, and they cured my backache. I hope people who are troubled with backache will give Dr. Pierce's Anuric Tablets a good trial. They do all that is required of them—they will not fail to benefit.—MISS EMMETT RYAN MORSE, R. F. D. 2.

MELOAN, N. C.—I suffered very much with my back and limbs. Had some degeneration of the kidneys but after using Anuric I obtained relief and have had no trouble since. I cheerfully recommend the Anuric Tablets to all who suffer from too much uric acid in the system.—CAPT W. G. GRAVES.

Louis B. Jennings Held in New Orleans  
on Information from Police of  
New York.

New Orleans, March 27.—Louis B. Jennings, president of the Standard Film company, of New York, was arrested last night by local police authorities, acting upon advice contained in a telegram received from Inspector Gray, of the New York bureau of detectives, saying Jennings was wanted there on a charge of grand larceny involving several hundred thousand dollars.

Jennings, according to the police, declared his arrest resulted from "pure vindictiveness on the part of a Detroit promoter and oil stock broker." He stated, the police said, that the Detroit man was in New York and probably was the chief witness before the grand jury. A business transaction in which Standard Film company stock was traded for mining stock which the Detroit man did not own, was the cause of the whole affair, Jennings told the police.

Jennings, who is from New York, also is president of an oil and sulphur company with headquarters in New Orleans.

Officials today expressed surprise that no one had been killed. Several hundred persons were employed in the warehouse and repair shops.
